Funsho Komolafe : A Teaching Atlas of Case Studies in Diagnostic Imaging before purchasing it in order to gauge whether or not it would be worth my time, and all praised A Teaching Atlas of Case Studies in Diagnostic Imaging:

A Teaching Atlas of Case Studies in Diagnostic Imaging is an essential educational tool for radiology residents preparing for fellowship and board examinations, and for practising radiologists. This extensive atlas is comprised of six sections, covering chest, musculoskeletal, urogenital, gastrointestinal, and neurological imaging, and a final section containing miscellaneous images. The book contains case studies which help explain the techniques used in diagnostic imaging and indications for their use. Each section of the book includes rare or uncommon cases with relevant radiographic images, followed by discussion on clinical presentation and a description of the main radiological

pathologies. The section on musculoskeletal imaging includes the latest procedures, recent advances and trends, bringing the atlas firmly up to date. A Teaching Atlas of Case Studies in Diagnostic Imaging is enhanced by nearly 600 radiographic images, and written by expert radiologists from the United Arab Emirates, ensuring authoritative content throughout. Key Points Collection of rare and uncommon case studies covering imaging of the chest, musculoskeletal, urogenital, gastrointestinal, and neurological systems 585 radiographic images UAE author team of senior consultant cardiologists
