G. Albyn Davis : Aphasia and Related Cognitive-Communicative Disorders (Allyn Bacon Communication Sciences and Disorders) before purchasing it in order to gage whether or not it would be worth my time, and all praised Aphasia and Related Cognitive-Communicative Disorders (Allyn Bacon Communication Sciences and Disorders):

In Aphasia and Related Cognitive-Communication Disorders, renowned author Albyn Davis gives graduate students and others pursuing a clinical career in adult language disorders, a comprehensive, up-to-date look at theory and practice in a balanced treatment of impairment-based and communication-based disorders. Written in a relaxed writing style, the book presents topics in an organized, logical progression that first provides an understanding of a disorder,

next discusses assessment and diagnosis, and then treatment. Included are explanatory walk-throughs to make challenging concepts clear plus coverage of special topics including therapeutic software and other technologies, levels of evidence, neuroplasticity, new medical treatments, quality of life, and primary progressive aphasia.

From the Back CoverA comprehensive, current foundation for pursuing a clinical career in adult language disorders, this new text is ideal for graduate courses on aphasia in adults and related cognitive disorders. The authors coverage of both theory and research in a balanced treatment of impairment-based and communication-based disorders is written in a relaxed writing style aimed at students. Professor Davis uses a single, coherent voice across the chapters to establish a consistent way of thinking about the material, while noting inter-chapter relationships throughout. Explanatory walk-throughs help to make challenging topics clear.
