Larry Boles : Aphasia Couples Therapy (ACT) Workbook before purchasing it in order to gauge whether or not it would be worth my time, and all praised Aphasia Couples Therapy (ACT) Workbook:

While workbooks for people with aphasia are not hard to find, they tend to be addressed to the clinical needs of the speech pathologist. However, current practice in the field aims to put more control in the hands of those with aphasia and their caregivers. This workbook facilitates that shift: It is geared toward the couple, rather than the client alone; it can be used by the speech pathologist as well as the significant other; and it is hierarchically organized, such that those with mild through severe impairment can use it.

Riva Sorin-Peters, PhD, Canadian Journal of Speech-Language Pathology and Audiology, (2010): "... Serves as a well-

needed resource for speech-language pathologists who are including SOs in therapy sessions. It provides specific activities in clear and simple language. It encourages the couple to actively reflect on and evaluate the conversation."About the AuthorLarry Boles has been a licensed, certified speech pathologist and is currently the president of the Asia Pacific Society for Speech, Language, and Hearing.
