**Beth Levin, Malka Rappaport Hovav : Argument Realization (Research Surveys in Linguistics)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Argument Realization (Research Surveys in Linguistics):

The relationship between verbs and their arguments is a widely debated topic in linguistics. This comprehensive survey provides an overview of this important research area, exploring theories of how a verb's semantics can

determine the morphosyntactic realization of its arguments. Assuming a close connection between verb meaning and syntactic structure, the analysis constructs a bridge between lexical-semantic and syntactic research. Synthesizing work results from a range of linguistic subdisciplines and a variety of theoretical frameworks, it will be invaluable to research in syntax, semantics, and related fields.

About the Author Beth Levin is William H. Bonsall Professor in the Humanities at the Department of Linguistics, Stanford University. Malka Rappaport Hovav is Professor in the Department of English, the Hebrew University of Jerusalem.
