

Following the immense success of the best-selling first edition, *Child Phonology: A Book Of Exercises For Students*, this new edition is more than double the size of its predecessor and provides the very latest up-to-date information in an eclectic workbook format. *Articulation And Phonological Disorders: A Book Of Exercises* provides essential and valuable information - encompassing everything that is needed practical applications of phonological principles.

"Its format is user friendly and the tables provide quick and easy access for reference. The straightforward presentation aids the students in developing the ability to recognize and concisely state clinical problems." - ASHA Leader  
About the Author  
Ken Bleile is a professor in the Department of Communication Sciences and Disorders, University of Northern Iowa, and has served as a visiting scholar in universities in Turkey, Singapore, Russia, and New Zealand. During summers Dr. Bleile often leads study abroad groups to provide speech and language services to children in orphanages and schools in developing countries, most recently in Nicaragua. Dr. Bleile is a recipient of the State of Iowa's Regent's Scholar Award, is a Fellow of the American Speech-Language-Hearing Association, and a recipient of the Multicultural Board's Diversity Champion Award. He serves as an Associate Editor of the American Journal of Speech-Language Pathology and is the former Chair of ASHA's International Issues Board. Dr. Bleile publishes widely on speech development, international issues, and communication disorders in children with medical needs and developmental disabilities. Recent publications include *The Neurological Foundations of Language*, *The International Directory of Communicative Disorders*, and *The Late Eight*.
