Bonni C. Hodges, Donna M. Videto : Assessment And Planning In Health Programs before purchasing it in order to gage whether or not it would be worth my time, and all praised Assessment And Planning In Health Programs:

0 of 0 people found the following review helpful. I purchased this book for grad school and loved it. The content is well writtenBy KatieI purchased this book for grad school and loved it. The content is well written, easy to navigate, and straight to the point. This book would also be valuable to someone who is simply just looking to improve their program planning skills.0 of 0 people found the following review helpful. Five StarsBy Customerwas as it was stated0

of 0 people found the following review helpful. Great InformationBy MaineGirlGreat book, just what I needed for class. Great information that I will use even when my class is over.

Conducting a needs assessment, planning an effective program, implementing programs, and evaluating them are at the core of health education and health promotion. This text gives an overview of needs assessment, program planning, and program evaluation, and explains several goals and strategies for each. The text also gives an overview of the importance and use of theories, data collections strategies, and key terminology in the field of health education and health promotion.
