From the simple to the complex, this visually stunning atlas guides you through more than 100 commonly performed emergency procedures in step-by-step detail. Each procedure includes a brief discussion of its indications, contraindications, equipment requirements, and complications and their management. Key to each discussion is the concise, yet detailed description of the procedure. Each procedure is followed by a discussion, including technical tips.

Alternative techniques are offered throughout, providing the reader with a variety of options for a particular procedure. Spanish version also available, ISBN: 84-8174-600-2
