Alain Gehin : Atlas of Manipulative Techniques for the Cranium Face before purchasing it in order to gauge whether or not it would be worth my time, and all praised Atlas of Manipulative Techniques for the Cranium Face:

0 of 0 people found the following review helpful. Amazing bookBy CustomerVery descriptive and easy to understand.0 of 1 people found the following review helpful. A great book!By Karen Scholl, MsThe details and descriptions are wonderful.For someone who needs this information...they couldnot find a better presentation! Thank you.5 of 6 people found the following review helpful. Useful PicturesBy William BagleyThe book is a catalog of useful Cranial Sacral alignment techniques for the head, neck, and face region. I found the level of detail helpful in getting the feel for subtle alignments. The book is meant to supplement the basic courses on Cranial Sacral work and take the work to the next level. The book is from a European Cranial tradition and has useful alternatives to the movements used in the US.

With more than one hundred illustrated techniques, Atlas of Manipulative Techniques for the Cranium Face is one of the most comprehensive sources of cranial techniques available. Organized by bone, each technique is illustrated through remarkable drawings which graphically depict the placement and movement of the practitioner's hands on the patient's head. Accompanying text systematically describes the purpose of the technique, the position of both patient and practitioner, the points of contact, and the movement of hands and fingers in relation to the cranial motion. The concise, systematic description of each technique and the vivid illustrations which accompany the text have contributed equally to the success which this book has enjoyed throughout the world.

"A valuable contribution to the literature on the cranial concept." -- from the Foreword by Viola M. Frymann, D.O., F.A.A.O."An excellent resource for the advanced practitioner of cranial therapy." -- Massage"Very good for in-depth study of details." -- Rolf LinesLanguage NotesText: English, French (translation)About the AuthorAlain Gehin is a Doctor of Etiopathy (a system of manipulative medicine) and has a private practice in the city of Metz, France. Since 1976 he has also been a professor at the European College of Etiopathy in Geneva, Switzerland where he teaches cranial and cranosacral therapy. He lectures widely at workshops in Europe and the United States. A student of traditional manipulative therapies, Dr. Gehin found that cranial manipulation is practiced throughout the world. In his teaching and medical practice he has integrated techniques from the medical traditions of Asia, Europe, Oceania and the United States.
