Serge Tixa : Atlas of Palpatory Anatomy of Limbs and Trunk, 1e (Netter Basic Science) before purchasing it in order to gage whether or not it would be worth my time, and all praised Atlas of Palpatory Anatomy of Limbs and Trunk, 1e (Netter Basic Science):

A visual guide to learning anatomy through manual inspection of surface forms. Using clear, easily understood

photographs, this atlas teaches anatomy through the presentation of structures and through manual inspection of surface forms (MISF). Each of the books sections neck, trunk, sacrum, and upper and lower extremities is introduced with a visual overview using illustrations selected from the world famous Atlas of Human Anatomy by the late Frank H. Netter. Each section begins with a series of relevant Netter illustrations, followed by detailed photographs, illustrations, and descriptions of gross anatomical structures, regions, topography, and musculature and innervation.

About the Author Serge Tixa est cadre formateur en coles d'ostopathie, chiropraxie et kinsithrapie. Il est galement charg de cours l'cole d'ostopathie de Lyon (ATSA) pour les formations initiales et en alternance ainsi qu' l'institut d'ostopathie (IFKO) et l'institut de masso-kinsithrapie (IFMK) de Montpellier.
