Lois Bly : Baby Treatment Based on Ndt Principles before purchasing it in order to gage whether or not it would be worth my time, and all praised Baby Treatment Based on Ndt Principles:

0 of 0 people found the following review helpful. Five StarsBy Nancy KAn excellent and classic resource for a professional treating therapist.0 of 0 people found the following review helpful. As promisedBy CustomerGreat book!1 of 1 people found the following review helpful. Good for pediatric PTBy Kukkyung SonIm PT from south Korea and working for children with CP.In studying this book, I can get a lot of theraputic ideas.But, to treat the children with various diseases well, PT should know the normal development.This book is second.

Using techniques based on neuro-developmental treatment (NDT) principles, this manual helps therapists facilitate

function in babies who have neurological disorders. The manual provides step-by-step instructions and photographs demonstrating positioning techniques and how to facilitate function. It is written by the co-author of the best-selling *Facilitation Techniques Based on NDT Principles*. Provides a step-by-step guide of goal-directed movements. Helps to increase a baby's muscle extensibility and joint range of motion. Includes strategies for observing and evaluating infants' movements.

About the Author Lois Bly, M.A., PT, is a teacher and consultant and maintains a private practice in Maryland. She has worked for many years as a physical therapist, treating babies with developmental disabilities and children with cerebral palsy. Since 1980, she has taught numerous workshops, seminars, NDT basic courses, and advanced Baby Courses throughout the United States, Australia, Brazil, Argentina, and South Africa. She received her Master of Arts degree in Motor Learning from Teachers College, Columbia University, New York, New York, and her Bachelor of Arts from Thiel College in Greenville, Pennsylvania. She earned a Certificate of Physical Therapy from the D.T. Watson School of Physiatrics in Leetsdale, Pennsylvania, and received her initial training in Neuro-Developmental Treatment (NDT) from Dr. and Mrs. Bobath in London, England.
