Gary C. White : Basic Clinical Lab Competencies for Respiratory Care: An Integrated Approach before purchasing it in order to gauge whether or not it would be worth my time, and all praised Basic Clinical Lab Competencies for Respiratory Care: An Integrated Approach:

0 of 0 people found the following review helpful. CLASS TEXTBOOK By Helen Z. Required textbook. Excellent condition 0 of 0 people found the following review helpful. Missing very important pages By Customer This was a very bad deal, most of the pages with the competencies are torn out. I haven't had time to deal with this, but I'm very upset! This was a very bad deal! I would like my money back! 0 of 0 people found the following review helpful. ... the clinical assessments had been used this book isn't useful for my class By Suzanne Renner The information in this book is usable but because all of the clinical assessments had been used this book isn't useful for my class. I was disappointed to see that due to it said slight writing in book. I am going to keep the product due to a refund and timing is a hassle.

A long time favorite, the fifth edition of **BASIC CLINICAL LAB COMPETENCIES FOR RESPIRATORY CARE: AN INTEGRATED APPROACH** continues to bring classroom theory to life at the bedside. Known for its integration of theoretical knowledge and practical skills, this book emphasizes the importance of assessment of need, contraindications, hazards/complications, monitoring, and outcomes assessment in respiratory care. Concise, direct, and easy to understand, this fifth edition has been updated to reflect recent advances in the field in order to ensure that readers have the knowledge and skills needed to practice the art and the science of respiratory care.

The best feature of this text is the competency evaluations. They are simple and straightforward. Mary Rose Wiesner, Mt. San Antonio College
About the Author Gary White is the program director of the Respiratory Care Program at Spokane Community College, where he has been teaching since 1992. He previously held the rank of Assistant Professor of Respiratory Care at Weber State University from 1982 to 1992. He holds a master's degree from Weber State University in Education, a bachelor's degree in Biology from the University of Puget Sound, and an associate's degree in Respiratory Therapy from Highline Community College. Gary's avocation is writing. He has authored three text books in respiratory care and is currently working on a manuscript for his fourth title.
