This must've been labeled as good condition because I wouldn't have chosen it otherwiseBy Peggy PThis book came as used, so I didn't expect perfection, but prior owner had spilled coffee all over it. I could've handled that if it had been the only issue. The answers to a lot of the questions had been filled in. This must've been labeled as good condition because I wouldn't have chosen it otherwise. There was no way this book should've been re-sold. I really should get my money back.0 of 0 people found the following review helpful. Should have bought the 2016 for \$20 more.By CustomerDecent. Had a lot of highlighting already in the book which made it difficult for my style of studying. Also outside of book was pretty beat up.
