Lou Ann Schraffenberg : Basic ICD-10-CM/PCS Coding before purchasing it in order to gage whether or not it would be worth my time, and all praised Basic ICD-10-CM/PCS Coding:

0 of 0 people found the following review helpful. Makes no sense!By NairI hate, hate, hate this book. This book gives no examples on how to code! Please listen authors, when you write a book, you obviously have in-depth knowledge about the topic (I hope). But readers like me, we DON'T. So elaborate! Give examples. Write in a way that people understand.If you can't, then please do not torture us with such books.2 of 2 people found the following review helpful. Two StarsBy Yichen Chiangthe book has many exercises but no answer key? how am I supposed to know if I am right/wrong?0 of 0 people found the following review helpful. Needed this book for school! idk how you review ...By JennaNeeded this book for school! idk how you review a book? lol it was what I needed and got me through my assignments
