Kenneth H. Cohn : Better Communication For Better Care: Mastering Physician-Administrator Collaboration (Executive Essentials) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Better Communication For Better Care: Mastering Physician-Administrator Collaboration (Executive Essentials):

0 of 0 people found the following review helpful. This book is for a class that I am taking By Susie Communication is a vital tool in the healthcare industry. This book is a quick read and provides the foundation of communicating in the healthcare industry. 1 of 1 people found the following review helpful. Timely By Donald J. Thieme One of the the most vexing problems our community hospitals CEO's face is their relationship with the private medical staff. In a period of declining reimbursement, high malpractice costs and increasing administrative costs that place great pressure on

physicians to act with greater self interest it is easy to have a breakdown in communications. This book goes a long way in helping one to realize that neither party is powerless in a situation of a seemingly misalignment of objectives. The ideas are very decent and likely to have application in a real world situation. 0 of 0 people found the following review helpful. they should have read this beforeBy Bryan G. Pilkington
Dr. Cohn's book is a must read for administrator's who want win-win situations and mean it. The book provides a rationale and insight into the physician's mindset, while giving concrete examples of the many pitfalls one can encounter in dealing with the complexities of medical staff problems. It is short and to the point; I actually wish some chapters were longer with more examples. If our CEO had read this book, we might not be in the situation we are in now.

This book will help you rise above frustrations by using open and productive communication. It presents practical strategies for making dialogue a high priority and working closely together toward a common purpose.

About the Author
Kenneth H. Cohn, MD, FACS, is a board-certified general surgeon currently splitting his time between providing locum tenens surgical coverage in New Hampshire and Vermont and working as a consultant at Cambridge Management Group, which specializes in physician-physician and physician-administration communication issues.
