Chandersekhar Moorthy : Contamination Control and Cleanrooms before purchasing it in order to gage whether or not it would be worth my time, and all praised Contamination Control and Cleanrooms:

This book addresses a long felt need in the industry for coherent information on contamination control, cleanrooms and biosafety and offers insights, guidance and assistance to ensure that practices and procedure are in step with current norms. It develops and refines the concept of an integrated micro contamination control. It focuses on the environmental expectations and testing for continued compliance as laid down in: *ISO 14644 Standards for Cleanrooms; *ISO 146 Final Draft International Standards for Biological Monitoring Control; * MCA Orange Guide December 2002; *USFDA Draft Guidelines for Sterile Drug Products by Aseptic Processing; *WHO Guidelines for Sterile Pharmaceutical Preparations.
