Craig A. Bond : Controlling Marketing: Marketing Success Through Marketing Controls before purchasing it in order to gage whether or not it would be worth my time, and all praised Controlling Marketing: Marketing Success Through Marketing Controls:

2 of 2 people found the following review helpful. Tell the storyBy SamI bought this book a week before I was to write our non profits annual appeal letter. In my mind I had to erase everything I thought I knew because THIS YEAR in particular was economically challenging. After reading the book and samples of letters, I got the big picture. I realized the power of story telling and followed even the rules about the proper font to use. The letter I wrote was engaging and nothing like I'd ever written before. It's only been a lttle over a week since our appeal was mailed, and donation envelopes are received in our mailbox already. I'd recommend the book to anyone who wants or needs to draw their potential donor into their message...and then write a check.
