Kristina M. English : Counseling Children with Hearing Impairments and Their Families before purchasing it in order to gauge whether or not it would be worth my time, and all praised Counseling Children with Hearing Impairments and Their Families:

This book informs students and professional counselors how to assist students with the social and behavioral

ramifications of having impaired hearing. In *Counseling Children with Hearing Impairments and Their Families*, counseling and its purposes are introduced. The risk of hearing impaired children, including self-concept, psychosocial, and emotional development are explored. For professional counselors, and graduate students in counseling, special education, and communication disorders.
