**AMA, American Medical Association : CPT / RVU 2015 Data Files (Single User)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised CPT / RVU 2015 Data Files (Single User):

A convenient way to import 2015 relative value units (RVUs) and complete CPTreg; and HCPCS codes with three types of descriptors length short, medium, and long into existing claims and billing systems. Easily calculate Medicare physician fee schedule (MPFS) with the combined complete CPT and HCPCS descriptor package and all of the 2015 RVU elements. Please note before placing your order: \* Data files cannot be returned for a refund. \* Data files are not software. There is no search application. Data files are designed to be used in any database, spreadsheet or other application that accepts a text (.txt) file format. Check with your data processing professional to ensure compatibility. Features and Benefits Complete CPT and HCPCS descriptor package for CPT- and HCPCS-coded services in the list of RVUs Three description lengths for CPT and HCPCS code descriptors: Short (28 characters); Medium (48 characters); Long (no character limit) Code descriptions in delimiter-separated values (DSV) format: Tab-delimited and pipe-delimited DSV format is a commonly usable and readable format for most database and spreadsheet programs Calculate MPFS with every element of the 2014 RVUs: Physician Work; Practice Expense (Facility and Nonfacility); Professional Liability Insurance Target Market Coding professionals, physicians, allied health professionals, medical office staff, trainers, coding consultants, insurance carriers, third-party payers and hospital billing offices (inpatient and outpatient)

About the Author The American Medical Association (AMA) is the premier national organization dedicated to shaping a healthier future for America by empowering the nation's physicians to provide safer, more efficient, and higher quality care for patients and communities. For more than 40 years the AMA has used its knowledge and resources to

author and publish books, data files, and online resources that answer the needs of today's busy physicians and their staff. The AMA line includes titles on CPTreg, HCPCS, ICD-9-CM, and ICD-10 coding; reimbursement; practice management; impairment; and HIPAA, electronic health records, and meaningful use.
