From Ingramcontent : Criteria for a Recommended Standard: Occupational Exposure to Hot Environments, Revised Criteria 1986 before purchasing it in order to gage whether or not it would be worth my time, and all praised Criteria for a Recommended Standard: Occupational Exposure to Hot Environments, Revised Criteria 1986:

The National Institute for Occupational Safety and Health (NIOSH) recommends that worker exposure to heat stress in the workplace be controlled by complying with all sections of the recommended standard found in this document. This recommended standard should prevent or greatly reduce the risk of adverse health effects to exposed workers and will

be subject to review and revision as necessary.
