Tyler Christopher Cook. Whittle : Curtis's Flower Garden Displayed; 120 Plates from the Years 1787-1807 with New Descriptions before purchasing it in order to gage whether or not it would be worth my time, and all praised Curtis's Flower Garden Displayed; 120 Plates from the Years 1787-1807 with New Descriptions:

Hardcover, 1991. Publisher: Magna Books, 1991. Book is very good in very good dust jacket. This book would have been described as "like new" except for light foxing on the text block. Pages are clean, bright and crisp in like new condition. There are 120 color plates of original illustrations done by Sydenham Edwards with an accompanying caption describing the plant. A new mylar cover has been added to protect the book. This book would be a wonderful addition to your horticulture library and comes from a private collection.
