Fenwick W. English : Deciding What to Teach and Test: Developing, Aligning, and Leading the Curriculum (Volume 3) before purchasing it in order to gage whether or not it would be worth my time, and all praised Deciding What to Teach and Test: Developing, Aligning, and Leading the Curriculum (Volume 3):

0 of 0 people found the following review helpful. Thanks exactly what I neededBy RenaMore writing and underlining than expected.but hey they underlined some pretty important stuGg so great jon.0 of 0 people found the following review helpful. Awful book and difficult to read. The language is ...By Stephanie SchmittAwful book and difficult to read. The language is so advanced that it took me multiple times of reading a sentence in order to fully understand it. We used this for my gifted curriculum class and I didn't get much out of it at all.0 of 0 people found the following review helpful. Written at a very high level so it makes reading ...By LindaWritten at a very high level so it makes reading a struggle. It is very hard to understand what he is actually trying to say. And I am a graduate student.

"This book makes the reader think deeply about the role of curriculum planning and its connection to assessment in this age of accountability."-J. Jeannette Lovern, Associate Professor of Curriculum and InstructionEastern Kentucky Un

Praise for the Second Edition: The strengths in this book are characteristic of all of English's works. The language is easy to follow, the text is set up in logical development by chapters, and the focus of his work is constant. He never strays from the topic or goes off on a tangent. Most important, his information is practical, doable, and sensible. The book is easy for practitioners, teachers, administrators, and those involved in the daily work of schools to adapt to their needs and make it work for them. --Salvatore F. Luzio, Sr., Adjunct Professor of Graduate Education

(02/16/2010)"For educators who want students and schools to be successful, this book provides a clear and proven process to accomplish this goal. It is succinct, yet packed with what's really important to create, develop, assess, and lead curriculum. As a university professor of educational leadership, Deciding What to Teach and Test remains my text of choice for graduate students. --Jane McDonald, Education Consultant in Leadership Development

12)This book makes the reader think deeply about the role of curriculum planning and its connection to assessment in this age of accountability. (J. Jeannette Lovern, Associate Professor of Curriculum and Instruction 2010-02-12)About the AuthorFenwick W. English (Ph.D.) is the R. Wendell Eaves Senior Distinguished Professor of Educational

Leadership in the School of Education at the University of North Carolina at Chapel Hill, a position he has held since 2001. As a scholar/practitioner he has held positions as a school principal and superintendent of schools in California and New York and as a department chair, dean, and vice-chancellor of academic affairs at universities in Ohio and Indiana. He is the former President of the University Council of Educational Administration (UCEA) and of the National Council of Professors of Educational Administration (NCPEA). His research has been reported in national and international academic forums. He edited the 2006 SAGE Encyclopedia of Educational Leadership and Administration, the 2009 SAGE Library of Educational Thought and Practice: Educational Leadership and Administration; and the 2011 SAGE Handbook of Educational Leadership (2nd Ed.). In 2013, he received the Living Legend Award from NCPEA for his lifetime contribution to the field of educational leadership.
