Wilburta Lindh, Marilyn S. Pooler, Carol D. Tamparo, Joanne Cerrato : Delmar's Comprehensive Medical Assisting Workbook before purchasing it in order to gage whether or not it would be worth my time, and all praised Delmar's Comprehensive Medical Assisting Workbook:

0 of 0 people found the following review helpful. I have seen better.By Vanessa J SmithDisappointing as a work book. I have seen better.

This workbook is designed to accompany Delmar's Comprehensive Medical Assisting. It is an essential part of a creative and dynamic learning system that includes the text- with an administrative skills CD-ROM bound in the back- and instructor support materials. This package will help you learn and reinforce the essential competencies needed to become a successful, multiskilled medical assistant. In addition, the workbook will challenge you to apply basic and advanced procedures and to use critical thinking skills in an integrated learning environment. It contains challenging

yet exciting questions to help you prepare for real-life situations. The entire learning system is complemented by real-life characters and scenarios from the field of medical assisting.

About the Author Wilburta (Billie) Q. Lindh, CMA, is an instructor and former program director of the Medical Assisting Program at Highline Community College, Des Moines, Washington. Billie has taught at Highline for ten years, and is a member of the Sea-Tac Chapter of the American Association of Medical Assistants. She is a frequent lecturer at AAMA seminars on the importance of communication and is co-author of three other medical assistant texts, including *Therapeutic Communications for Allied Health Professions* by Delmar Publishers.
