Institute of Medicine, Committee on Choice and Managed Care: Furthering the Knowledge Base to Ensure Public Accountability and Information for Informed Purchasing by and on Behalf of Medicare Beneficiaries : Developing an Information Infrastructure for the Medicare+Choice Program: Summary of a Workshop (Compass Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Developing an Information Infrastructure for the Medicare+Choice Program: Summary of a Workshop (Compass Series):

On March 4 and 5, 1998, the Institute of Medicine (IOM) Committee on Choice and Managed Care held a 2-day workshop entitled Developing the Information Infrastructure for Medicare Beneficiaries. This workshop was a follow-up to the IOM report entitled Improving the Medicare Market: Adding Choice and Protections. The workshop focused on the Medicare provisions in the Balanced Budget Act of 1997, which mandate that the Health Care Financing Administration (HCFA) develop a "nationally coordinated education and publicity campaign" in 1998 and move Medicare beneficiaries to an open-season enrollment process by the year 2002.
