**Alicja R. Rudnicka MSc PhD MCOptom, Jennifer Birch MPhil FCOptom : Diabetic Eye Disease: Identification and Co-Management, 1e** before purchasing it in order to gage whether or not it would be worth my time, and all praised Diabetic Eye Disease: Identification and Co-Management, 1e:

Diabetic eye disease is the greatest single cause of blindness in the working population in developed countries and this book provides valuable information for primary and secondary health care professionals involved with diabetic eye disease. An essential guide for optometrists, general practitioners, specialist registrars and ophthalmologists and indeed anyone requiring a knowledge of diabetes and diabetic eye disease.\* There is no other book which looks at diabetes from the shared care perspective \* The demand for this book will increase as shared care in diabetic eye disease

expands \* Written with a practical approach, with bullet points, this book covers all aspects of the disease process
