Klaus Busch : Diabetische FüÙ;szlig;e und ihre Schuhversorgung (German Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Diabetische FüÙ;szlig;e und ihre Schuhversorgung (German Edition):

For the diabetic, the wrong shoes can result in serious health consequences culminating in the amputation of the foot. The 2nd, completely revised edition of this work presents new approaches of evidence-based medicine in medical aids.

The practice-oriented solutions in this book, within the scope of a disease management program, provide targeted treatment and help to lower the amputation rate in patients with a "diabetic foot". Key features: Correct shoes and treatment for diabetic podopathy and Charcot foot Approx. 100 color illustrations and more than 20 tables
