Dennis M. Adams : Diagnosis Documentation Coding: The Key to Reimbursement and Capitation (Hfma Healthcare Financial Management Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Diagnosis Documentation Coding: The Key to Reimbursement and Capitation (Hfma

Healthcare Financial Management Series):

Accurate diagnosis, documentation and coding of services rendered for every patient visit permits close analysis of a healthcare provider's utilization profile. This information, gathered by using diagnostic structuring, can provide detailed data for proper utilization prediction. This book aims to illustrate the importance of data capture and teaches physicians and practice administrators accurate techniques for doing so. It also provides the basics for combining data with in-office demographic information to give the provider a strong position for negotiating managed care contracts. The book aims to help with the successful implementation of managed care by providing the basics of using diagnostic structuring for: compiling utilization data; creating prediction formulas; developing negotiation strategies and implementing practice strategies to use after contracting.
