**John, Jr., Ed. Tassone : Diagnostic Ultrasound of the Foot and Ankle** before purchasing it in order to gage whether or not it would be worth my time, and all praised Diagnostic Ultrasound of the Foot and Ankle:

Diagnostic Ultrasound of the Foot and Ankle is a valuable resource that examines the proper ultrasound technique when imaging the lower extremity. Editors John Tassone Jr and Stephen L. Barrett, along with a group of ultrasound specialists, delve beyond identifying pathology and provide readers with an analysis correlating how the information gained from a lower extremity ultrasound can be used in surgical planning. Additional images provided by world-class sonographer Brian Kincaid supply further clarification and illustration of ultrasound imaging.

"Diagnostic Ultrasound of the Foot and Ankle is practical and informative. This book fills an important educational niche, and I predict that it will be an important resource for practitioners of podiatric ultrasound." - Levon N. Nazarian, MD, Professor of Radiology, Thomas Jefferson University Hospital

About the Author

A practicing podiatrist since 1997, John Tassone, Jr, DPM is a graduate of the Ohio College of Podiatric Medicine and completed his residency at the McGuire VA Hospital in Richmond, Virginia. He serves as an associate professor at Midwestern University and an adjunct professor in the Maricopa Community College system. Dr. Tassone lectures nationally and is board certified in podiatry and lower extremity wound care.

Stephen L. Barrett, DPM is board certified in foot and ankle surgery and wound management. He earned his undergraduate degree (cum laude) from the University of Utah and his doctorate (cum laude) at the William M. Scholl College of Podiatric Medicine in Chicago. Dr. Barrett completed his residency at the Medical Arts/Danforth Hospital in Houston, followed by a post-doctoral MBA from Texas Tech University in Lubbock. He has trained thousands of surgeons throughout the world on techniques he invented and developed.
