Anna M. Curren : Dimensional Analysis for Meds, 4th Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised Dimensional Analysis for Meds, 4th Edition:

2 of 2 people found the following review helpful. Forget the rest, stoichiometric math is the best...By G. WalkerOK granted that I am "old school" and had to teach myself math (in chemistry). Seriously, this is the only way to do and learn med-calc in nursing school. Forget the ordered or have stuff or cross multiplication, learn stoichiometric math in one step this book helped me pass my med calculation tests, I only wish I had found it earlier...0 of 0 people found the following review helpful. Five StarsBy Sheryn AtkinsonEasy to understand and step-by-step instructions. I recommend this text to everyone needing to learn dimensional analysis!0 of 0 people found the following review helpful. Easy, Understandable, and Enjoyable ReadBy Nurse KayI don't usually review text books, but to my surprise I really liked this text. It explains its lessons in ways that are easily understood and provides a lot of sample problems

that really help the reader practice and get good at the material. It also had me chuckling a few times! I would recommend this book if you're learning dimensional analysis!

Boost your confidence in dosage calculations with the strongest dimensional analysis book on the market! Increase your skills and confidence by turning to leading author Anna Curren, who has successfully taught dosage calculations to thousands of students over the years. *Dimensional Analysis for Meds*, fourth edition, will set your feet on the right path to accuracy and aptitude in medication calculations. You will find full-color drug labels and syringes throughout, tied to questions that test your understanding and mastery of drug dosages. Upon successful completion of the program outlined in *Dimensional Analysis for Meds*, you will be confident in your skills as a safe and effective practitioner.

About the Author Anna Curren has been writing inspired clinical textbooks for more than 40 years. A nurse and former Associate Professor at California's Long Beach City College, she first wrote this text when the one she was using bore no resemblance to her students' clinical needs. Her graduate degree in instructional design, along with many student and instructor reviews, helped her create what is now the most adopted text on the subject. Also a successful entrepreneur, Ms. Curren founded Wallcur, Inc., a company which produces instructional products, including Injecta-Pad, Practi-Amp, Practi-Insulin Training Pack, and other learning resources. Ms. Curren also wrote the best-selling *Dimensional Analysis For Meds*, also by Cengage Learning.
