**Anna M. Curren, Laurie D. Munday : Dimensional Analysis for Meds** before purchasing it in order to gage whether or not it would be worth my time, and all praised Dimensional Analysis for Meds:

0 of 0 people found the following review helpful. GREAT PRODUCT!By CustomerThis book explains things very clearly and made my dosage calculation test very simple! This is being said by someone who is not good at math, never has been, and stressed out every quarter about the dosage calculation test! I am soo happy that i bought this book, it came quickly and was in great condition! Best of all it helped soo much! great product!0 of 0 people found the following review helpful. Confusing muchBy Malinda HawkinsThe book does not explain anything or show why the answer is the answer for those who don't get it0 of 0 people found the following review helpful. great!By SusanGreat condition!

Calculating dosages has never been so easy! Dimensional Analysis for Meds is a completely self-instructional learning tool created to simplify clinical calculations. Utilizing the method of dimensional analysis, the material is presented in a helpful format that encourages step-by-step learning.

About the Author Anna Curren has been writing inspired clinical textbooks for more than 40 years. A nurse and former Associate Professor at California's Long Beach City College, she first wrote this text when the one she was using bore no resemblance to her students' clinical needs. Her graduate degree in instructional design, along with many student and instructor reviews, helped her create what is now the most adopted text on the subject. Also a successful entrepreneur, Ms. Curren founded Wallcur, Inc., a company which produces instructional products, including Injecta-Pad, Practi-Amp, Practi-Insulin Training Pack, and other learning resources. Ms. Curren also wrote the best-selling Dimensional Analysis For Meds, also by Cengage Learning. Former Associate Professor of Nursing, San Diego City College, San Diego, CA
