**Olive Peart : Mammography and Breast Imaging PREP: Program Review and Exam Prep** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Mammography and Breast Imaging PREP: Program Review and Exam Prep:

3 of 3 people found the following review helpful. Great Review By Andrea Lopez-AddictedSouls This book has been one of the better ones I've seen to help me prepare for review. I love that there is a review section before the tests. I'm sure with the help of this book I'll pass my review. 1 of 1 people found the following review helpful. Five Stars By Melinda Great for the test 0 of 0 people found the following review helpful. Great Study Tool By Belinda G. Has a few typos.. Nothing major. Great study guide and you won't find a better study tool out there. This was all I used to study for my ARRT Mammo test and passed with a 86. Good luck

A comprehensive review for the mammography registry examination from an experienced educator and clinician who knows exactly what it takes to pass Includes new coverage of the latest digital imaging technologies Written by an instructor and mammography specialist at Stamford Hospital Concise narrative text helps you to focus on essential concepts Practice questions with answers referenced to the text allow you to gauge your comprehension of important material Learning aids such as objectives and glossaries at the beginning of each chapter streamline the learning process Numerous radiographs teach you to recognize good and bad films and normal circumscribed lesions and breast calcifications High-quality diagrams help you learn correct patient positioning consistent with the American College of Radiography and the Mammography Quality Control Manual Valuable during coursework to help you recognize and understand concepts that are likely to appear on the exam A complete review for licensure that includes the history of breast imaging, breast cancer detection, and treatment (including new imaging methods and recent advances in digital mammography, MRI, BSGI, DBT, volumetric ultrasound imaging, and Cone Beam Breast CT)
