Linda A. Roussel : Management And Leadership For Nurse Administrators (Roussel, Management and leadership for Nurse Administrators With Online Access) before purchasing it in order to gage whether or not it would be worth my time, and all praised Management And Leadership For Nurse Administrators (Roussel, Management and leadership for Nurse Administrators With Online Access):

2 of 2 people found the following review helpful. It is a textbook By AES One of the best written textbooks I have had to use. It is easy to find the information you are looking for. But if you are buying this you probably don't have a choice since it is most likely required for school. I have not met Dr. Roussel in person but I have heard through the

grapevine that she is a fine educator and an excellent example of nurse leadership.0 of 0 people found the following review helpful. Good ideas, terrible websiteBy Diana MillerThe book is useful, I just wish the publisher's website was more user friendly. I registered this book but am unable to log-in. I have contacted tech support and will update this depending on the service. In my opinion, for the prices we pay for these textbooks the customer service should rival that of a four star [insert service industry of your choice here].0 of 0 people found the following review helpful. Three StarsBy CustomerUsing it for school and keeping for referencing.

This completely revised, yet comprehensive text provides management concepts and theories, giving professional administrators and students in nursing theoretical and practical knowledge. Management and Leadership for Nurse Administrators, Sixth Edition provides a foundation for nurse managers and nurse executives as well as students with major management and administrative content including planning, organizing, leadership, directing, and evaluating. An additional chapter, titled "The Executive Summary", is included. Management and Leadership for Nurse Administrators, Sixth Edition combines traditional organizational management content with forward-thinking healthcare administration content. This comprehensive Nursing Administration text includes content on: *complex adaptive systems *evidence-based practices *academic and clinical partnerships *trends in nursing leadership *implications for education and practice *creating a culture of magnetism *information management and technology *risk management *legal issues *building a portfolio Key features of this book include unit openers, learning features and objectives, "Concepts," "Nurse Manager Behaviors," "Nurse Executive Behaviors," quotations, summaries, exercises, review questions, Evidence-Based Practice Research Boxes, case studies, tables, figures, and charts, clinical leader content and content related to the Doctor of Nursing Practice (DNP), and a glossary.

About the AuthorLinda A. Roussel, DSN, RN, NEA-BC, CNL-Professor, University of South Alabama - College of Nursing, Alabama Dr. Roussel has a strong background in nursing administration, teaching, and consultation. She has been instrumental in the developing of a number of educational and leadership programs included the DNP, CNL, and Executive Nurse Administration. She serves on the ANCC Expert Panel for the Executive Nurse Administration certification exam, as well as academic representative for the Clinical Nurse Leader Association (CNLA). She has been an invited speaker at national conferences including the AACN Masters Conference, Clinical Nurse Leader Summit, and the Evidence-Based Summer Institute (University of Texas Health Science Center San Antonio).
