Maggie Lee Huckabee, Cathy A. Pelletier : Management of Adult Neurogenic Dysphagia (Dysphagia Series)
before purchasing it in order to gage whether or not it would be worth my time, and all praised Management of Adult Neurogenic Dysphagia (Dysphagia Series):

5 of 6 people found the following review helpful. Management of Adult Neurigenic DysphagiaBy A CustomerThis book was very informative. It contained chapters pertaining to all of the hot issues in dysphagia management, including malnutrition/dehydration and reimbursement issues. Treatment strategies included both old and new

methodology.

This innovative text addresses issues related to the management of the adult patient who has dysphagia - an area of clinical interest that is relatively new as much of the existing literature has focused on the physiologic and diagnostic aspects of dysphagia. Concentrating on long-term management and complete rehabilitation efforts when appropriate. Management of Adult Neurogenic Dysphagia serves as a valuable reference for treatment planning, clinical management, and dialogues regarding ethical dilemmas in service delivery to the patient with neurogenic dysphagia.

Foreword by John C. Rosenbek, Ph.D. Issues in Dysphagia Management. Framework for Intervention. Rehabilitation of Dysphagia. Biofeedback Modalities: Surface Electromyography. Other Biofeedback Modalities: Endoscopy, Ultrasound, Auscultation, Oximetry. Compensatory Interventions for Dysphagia. Malnutrition and Dehydration in Dysphagia. Non-Oral Nutrition. Oral Nutrition Interventions for Dysphagia. Special Issues of Feeding Dependency. Surgical Management of Dysphagia of Neurogenic Origin. Legal and Reimbursement Issues of Documentation. The Patient's Perspective. Appendix A: American Speech-Language-Hearing Association Code of Ethics. Appendix B: American Speech-Language-Hearing Association Statement of Practices and Procedures of the Board of Ethics. Appendix C: Medicare Intermediary Manual Part 3-Claims Process. About the Author University Clinic of Neurology, Ludwig Boltzmann Institute for Functional Brain Imaging, Vienna Austria. University of Memphis, Tennessee.
