clinical management of motor speech disorders. I happen to own both, but if I was on a budget or running out of bookshelf space, I'd probably go with Duffy text instead. 0 of 3 people found the following review helpful. Great! By Hanna R Trapp Thank you very much! I received this item in no time, and the condition was great, just as I expected.

...discover an in-depth cohesive approach to clinical examination and treatment planning...covers basic neurologic and general information associated with the various diseases disorders and syndromes that cause motor speech disorders
