Janice Rider Ellis PhD RN, Celia Love Hartley MN RN ANEF : Managing and Coordinating Nursing Care
before purchasing it in order to gauge whether or not it would be worth my time, and all praised Managing and Coordinating Nursing Care:

0 of 0 people found the following review helpful. Works but uglyBy NickolasWas under the impression that I was buying a new book, but the book came in damaged and it looks like the scratch off code was replaced. I can still use it but if you're expecting a product in good condition, you should lower your expectations.0 of 0 people found the following review helpful. required for school, never used itBy AmberNot a terrible book, but I'm just mad that I spent a lot of money to buy this book and our instructor only assigned about 20 pages of reading from it all qtr. Now will only buy it back for \$5. Wish I hadn't bought it because of the 20 pages assigned, I probably read 2 or 3.0 of 0 people found the following review helpful. Five StarsBy Holly ChinnisAwesome prep for nursing management. It really helped me in my last class!

Now in its Fifth Edition, this text is designed to teach nursing students to apply effective decision-making, leadership, delegation, prioritization, and patient management skills to real-world practice situations. With its emphasis on critical thinking and collaborative decision making, this book has been highly successful in building students' problem-solving and management abilities. The book is in full color and has light-hearted illustrations that teach key concepts in a memorable way. Icons highlight legal/ethical, cultural, and safety considerations. Numerous examples and critical thinking exercises illustrate concepts and encourage students to apply what they have learned.
