**Donald Lombardi, Anthony D. Slonim MD : Manual of Healthcare Leadership - Essential Strategies for Physician and Administrative Leaders** before purchasing it in order to gage whether or not it would be worth my time, and all praised Manual of Healthcare Leadership - Essential Strategies for Physician and Administrative Leaders:

2 of 2 people found the following review helpful. Great Read!By Matt MortonThis is a great book for anyone looking to learn more about the healthcare industry, especially from a leadership/strategic standpoint. Lombardi's take on the subject matter is great and the information is very effective. Five out of Five.

How physician executives and managers can become outstanding leaders in times of rapid changeA Doody's Core Title for 2017!Written by authors who have more than sixty years of combined experience in healthcare, physician, and organizational leadership, this groundbreaking book is an innovative blueprint for overcoming the complex changes and challenges faced by leaders in today's healthcare environment. Rather than being a theoretic work, *The Manual of Healthcare Leadership* is intended to be a relevant, practical, and real-world guide that addresses the myriad organizational, regulatory, budgetary, legal, staffing, educational, political, and social issues facing leaders in the healthcare industry. One of the primary goals of this book is to enable readers to maximize the performance of each staff member in the interest of collectively providing peerless healthcare to their service community. The strategies offered throughout the text include the "why, what, and how" necessary to solve specific problems and challenges encountered by healthcare managers and leaders. Instruction is provided not only with text, but with diagrams and other resources specifically designed to demonstrate sequential thinking and the progressive application of solutions. With this book in hand, healthcare leaders will be able to confidently select, train, guide, and assess their staff. They will also be able to negotiate, plan, resolve problems, manage change and crisis, and handle the thousand and one other challenges that come their way on a daily basis.

About the AuthorDonald Lombardi, MD (Boston, MA) is the Director and Industry Professor of the Stevens Healthcare Educational Partnership and the Academic Director of the Veterans Program at Stevens Institute of Technology. He also holds faculty appointments at Fordham University and Monmouth University.
