**Joseph S. Sanfilippo, Eric J. Bieber, David G. Javitch, Richard B. Siegrist : MBA for Healthcare** before purchasing it in order to gage whether or not it would be worth my time, and all praised MBA for Healthcare:

1 of 1 people found the following review helpful. Lucid explanations of important management concepts, with case examplesBy Taryn P VianThis is an excellent primer on management and leadership concepts for healthcare organizations. It covers a broad range of topics: strategic planning; organizational behavior and leadership; leadership and cost analysis; ethics and law. The writing is tight and lucid, each ending in a case study. Many chapters have good

examples, and I appreciated the worked-through calculations for costing. The authors summarize a lot of theory in accessible ways, with the focus on implications for decision making and managing in the context of healthcare today (i.e. regulatory environment). Challenges are not ignored (for example, leveraging technological advances for healthcare), but overall the book is positive and accessible. I am teaching a new course in management and leadership for public health professionals and I think this book could be very relevant for that audience, as well as hospital managers and leaders of service delivery organizations.

0 of 0 people found the following review helpful. Excellent  
By Steve S  
Outstanding review of healthcare management, law, and finance.  
0 of 1 people found the following review helpful. Great resource and a good read!  
By Maria Chandler  
This is a great resource and skill builder for those who either have an MBA or wish they did!

In a rapidly-changing healthcare industry, the American College of Physician Executives affirms: "These days, it isn't enough to be a good doctor. Whether you're working in a group practice or hospital, in insurance or any other health care setting, you also need business know-how and skills if you want your organization and your career to thrive." *MBA for Healthcare* provides this know-how and these skills. With the mastery of healthcare management in mind, this book provides clinicians and administrators with the knowledge to advance their careers and make their organizations more competitive and successful. With backgrounds in education, medicine, administration and law, the authors present a wide variety of subjects to enhance healthcare provider's careers, including: cost accounting, management control structure and process, strategic planning, entrepreneurship, competitive marketing, and more. Case studies place theory in context and demonstrate practical, real life solutions. *MBA for Healthcare* is designed specifically for those looking to learn the business of medicine, whether as part of a joint MBA/MD or as a clinician looking to deliver the very best healthcare for your patients. This practical guide will provide an indispensable guide to the essential business and management tools you need for success.

**About the Author**  
Joseph S. Sanfilippo, MD, MBA, is a Distinguished Alumnus of the Rosalind Franklin University of Medicine, Chicago Medical School. His postgraduate work includes completing the Association of Professors in Gynecology and Obstetrics (APGO)/Wyeth-Ayerst Academic Leadership Skills Program at the Wharton School and being awarded an MBA from Chatham University (for which he has served on the Board of Trustees as well as the MBA Advisory Board). He is currently Professor of Obstetrics, Gynecology and Reproductive Sciences at University of Pittsburgh School of Medicine and Director of the Division of Reproductive Endocrinology and Infertility as well as Director of the Center for Fertility and Reproductive Endocrinology at Magee-Women's Hospital.  
Eric J. Bieber, MD, MSHCM received his MS in Healthcare Management from Harvard University and his MD from Loyola-Stritch School of Medicine. An obstetrician/gynecologist, his clinical subspecialty is reproductive endocrinology. Dr. Bieber is currently System Chief Medical Officer, University Hospitals and President, University Hospitals Accountable Care Organization (University Hospitals Health System, Cleveland, OH). His responsibilities include the creation of UH ACO's current management structure, encompassing 1,700 independent physicians and 1400 employee physicians. In addition to overseeing graduate medical education, he helped developed annual patient quality/safety conferences which draw more than 800 attendees.  
David G. Javitch, PhD is an organizational psychologist and President of Javitch Associates, a business consulting firm. He received his PhD from Ohio State and is a member of the Institute of Management Consultants, the American Psychological Association, and is the Vice President of the Men's Association of the Rehabilitation Center for the Aged. Dr. Javitch conducts management seminars (in English and in French) for executives from a variety of businesses around the world. In this capacity, he has worked with the European Union, the Organization of Eastern Caribbean Nations, several Ministries of Health, the US Department of State, and the US Agency for International Development.  
Richard B. Siegrist, Jr. is co-director of the Master in Health Care Management Program and director of innovation and entrepreneurship at the Harvard T.H. Chan School of Public Health. He was previously CEO of Press Ganey Associates, senior vice president at WebMD, and co-founder and CEO of several health care startup companies.
