A Bhan, I Whelehan, J Whittle, V J K Menon : MCQS and OSCES in Optics and Refraction before purchasing it in order to gage whether or not it would be worth my time, and all praised MCQS and OSCES in Optics and Refraction:

The book contains multiple choice and short questions to help candidates prepare for the new Part II MRCOphth exams. The MCQs relate to optics, refraction and clinical ophthalmology. The short questions are similar to the OSCE

format of the exam and contain good picture material. Clinical notes help describe the sequence of practical refraction and other methods.

From the Back CoverThe book contains multiple choice and short questions to help candidates prepare for the new Part II MRCOphth exams. The MCQs relate to optics, refraction and clinical ophthalmology. The short questions are similar to the OSCE format of the exam and contain good picture material. Clinical notes help describe the sequence of practical refraction and other methods.
