Rosie Allan, Gary J. R. Cook, Deborah Cunningham, David Scullion : MCQs in Clinical Nuclear Medicine before purchasing it in order to gauge whether or not it would be worth my time, and all praised MCQS in Clinical Nuclear Medicine:

Written specifically for those candidates about to sit for the FRCR part II examination, the format will also be of use to other trainee radiologists who are not specialists in this field. It contains a number of multiple choice questions covering all aspects of nuclear medicine with particular emphasis on the more common techniques, ie bone, renal and lung scanning. Extensive use is made of review articles, and important articles in the major nuclear medicine journals and references are provided.
