Ora Strickland, Colleen DiIorio : Measurement of Nursing Outcomes, 2nd Edition, Volume 3: Self Care and Coping before purchasing it in order to gage whether or not it would be worth my time, and all praised Measurement of Nursing Outcomes, 2nd Edition, Volume 3: Self Care and Coping:

0 of 0 people found the following review helpful. Needed for class projectBy midwestnurseOrdered this text specifically for information on Elizabeth Barrett's Power theory analysis- very informative and comprehensive in this aspect. Found it for 'a steal' here on !

This thoroughly updated and revised new edition of the award-winning series on measurement presents nearly 80 actual, tested instruments for assessing nursing outcomes in a multitude of settings and situations. Each tool is accompanied by a descriptive essay that includes information on purpose, administration, scoring, and reliability and validity. Whether you are interested in measuring patient outcomes, evaluating patient learning, or assessing the effectiveness of teaching and learning in a nursing school, this compendium can provide the authoritative tools you need.

"This book presents actual, tested instruments for assessing nursing outcomes. Each tool is accompanied by descriptive essay... related to client self care, social support..."--Doody Enterprises, Inc.From the Back Cover" This thoroughly updated and revised new edition of the award-winning series on measurement presents nearly 80 actual, tested instruments for assessing nursing outcomes in a multitude of settings and situations.
