Donna L. Shea, Adrienne Lynne Carter-Ward : Medical Assisting: Clinical Skills Manual (Health Life Science) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Medical Assisting: Clinical Skills Manual (Health Life Science):

Students can't help but get absorbed in this new, comprehensive, hands-on clinical skills guide. Skills are presented from basic to complex, and the focus never strays from student development of Total Patient Care and critical thinking skills. The book's flexible design allows for easy use in both modular and semester/quarter-based programs.

Universal Precautions. Preparing for Patient Care. Mensurations. Physical Examinations (Adult). Pediatric Patients.

Assisting Challenging Patients. Parenteral Medication. Non-Parenteral Medication. Prescriptions. Diagnostic. Therapeutic. Asepsis/Surgical Preparation. Instruments/Tray Set-ups. Sterile Surgical Procedures. Bandaging Techniques. Specimen Collection. Diagnostic Testing - Urine. Diagnostic Testing - Blood. Miscellaneous Tests. Glossary. Appendices. About the Author Donna L. Shea, CRT, RMA, CMA-AC, RPT, CPT, is an instructor at the National Education Center in San Bernadino, California. Adrienne Lynne Carter-Ward, CMA-CP, NRMA, EMT, is an instructor at the National Education Center in San Bernadino, California.
