It's terribly outdated and won't even let me access the content to take the practice test for study questions? Been on the phone with cengage for 30 minutes to be hung up on and email they provide doesn't go through. Using a new HP computer too and there shouldn't be any problem. In my opinion it's

a waste of money since the disk is worthless. If anyone has any idea how to get the disk to work please post.0 of 0 people found the following review helpful. and it's been a great study toolBy Frances HernandezI received the book on time, and it's been a great study tool. **About the Author** John P. Cody, MPH, MBA, CMA (AAMA), has acquired nearly 30 years of health care and adult education experience. His health care experience began while serving as a general duty Hospital Corpsman in the U.S. Navy. During his military service, he completed training and gained experience as an emergency medical technician, medical laboratory technician, clinical and laboratory supervisor, and administrative supervisor. Shortly before being honorably discharged from the Navy, John completed his B.S. degree in Health Care Management from Southern Illinois University. Being a strong advocate of higher education, John subsequently completed a master's degree in public health administration, as well as one in business management from the University of Minnesota. Concomitantly, John has served as a professor of health sciences, program director, and academic administrator in business and allied health education. John lives with his family in East, Central Illinois.
