Five Stars By tameika Thanks 1 of 1 people found the following review helpful. does not cover all points on test By Valerie Reyes I bought this book for CCMA test. There were many ekg questions and lab questions on test not covered in book. About 3 chapters in book that were not on test at all. I was disappointed with this book after taking this test. This book is not enough info. If used solely to prepare for test.

Medical Assisting Review: Passing the CMA, RMA, and CCMA Exams, Fourth Edition provides example questions for students to prepare for certification exams. This reference prepares students to take the exam with easy-to-read essential material summaries that highlight key areas of the major clinical and administrative parts of a Medical Assistant's program. Each of the chapters includes a series of 20 to 30 multiple choice quiz questions and a concise outline of key information. CONNECT PLUS provides more than 1600 sample review questions as well as a PowerPoint presentation for additional student review. The review questions include rationales for answers and correlations to certification competencies. NOTE: ISBN:007337458X, is for the fourth edition of Moini, MA Review, main text.
