A Ruter, H Nilsson, T Vikstrom : Medical Command and Control at Incidents and Disasters before purchasing it in order to gage whether or not it would be worth my time, and all praised Medical Command and Control at Incidents and Disasters:

This book describes a practical process for setting up different levels of medical command at a major incident or disaster site. It is recommended for all first responders and other medical personnel working at the scene or at a strategic level or in a disaster management group in a hospital
