**Alice Anne Andress CCS-P CCP : Medical Insurance in a Flash!: An Interactive, Flash-Card Approach** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Medical Insurance in a Flash!: An Interactive, Flash-Card Approach:

1 of 1 people found the following review helpful. Need to Brush Up on Medical Insurance?? This Book is an Excellent Resource By scoobiedawg Information is provided in an easy to understand and use format. There are tips from patient registration to the submission of a claim. A little refresher course on the basics, then it goes into detail about everything you need to know about Medical Insurance. There is an inter-active Cd that contains 10 case studies of patient records whose claims were denied. You get to review all the documentation, find the errors and correct them, and then resubmit the form. Exactly what you would be doing if you were in a medical office and in charge of

insurance claims. Excellent practice material. Also lots of flash cards for on the go studying as well. Answers to exercises are provided, so you can check your work as well. A very good book for extra practice in a difficult subject. Definitely a good investment in your education. Can be used to supplement study materials to your other text books, and give you that extra boost that could mean the difference between a passing or failing grade. 0 of 0 people found the following review helpful. Could Use Improvement By Alvin C. While this text does simplify medical billing, it contains many typos and some of the information presented was even inaccurate. 1 of 1 people found the following review helpful. Great Used By Marilyn Tripps This was a good product however it would have been better if the flash cards were included in it. The description in the beginning did not mention that it was not included.

Note: Medical Insurance in a Flash! includes flashcards AND CoderPlus CD-ROM! Mastering medical insurance and coding made fun and simple. This easy-to-follow, traditional approach meets the needs of all learning styles with a visually rich text with perforated/tear out flash cards, CoderPlus interactive software on the bonus CD-ROM, and a wealth of learning tools online.
