Loved the explanations on the same page and actually saw very similar questions on the actual board. Recommend this everytime someone asks 3 of 3 people found the following review helpful. A must-have for any CLS student or instructor By Toota Whether you're a student or an instructor, this book has amazingly well-constructed MCQs that covers the most important learning objectives in the CLS 6 different specialties. I especially love the comprehensive explanation of the correct answer as well as the explanation of the reasons behind exclusion of other distractors in the MCQ choices. 8 of 8 people found the following review helpful. wonderful review book By 10011001 your teachers can't cover everything but expect you to know it all when it come time for the tests. this book causes you to think in multiple ways and take into consideration small facts

that end up being very important
