Great buy!!!!By silviaWas originally skeptical about buying a used book and had heard other classmates buying used books and receiving them without the peg board and there being marks an torn pages. But sure enough not only were there no tears or marks on the book but the peg board and papers came with the purchase! Everything arrived in a timely manor, all in all this was a ridiculously great buy for the price!!!!0 of 0 people found the following review helpful. I spent nearly \$100. in the school store and close to nothing when I purchased it on e-bay. The reason I purchased it was
